Please see below for instructions on how to apply the numbing cream prior to your treatment. Remember to use a measured teaspoon and not to use more than directed to avoid lidocaine toxicity. If you have any questions, please call prior to application (530) 756-5758.

VirtueRF - Full Face

You can apply numbing cream to your full face. Focus on the hairline and the upper lip as these are the most sensitive areas.

**Laser Hair Removal-
Upper Lip**

Apply numbing cream to the upper lip only.

**Laser Hair Removal-
Brazilian**

Apply numbing cream to labia majora and perineum (area between labia and anus)

Excel V - Full Face

You can apply numbing cream to the full face. Focus on the hairline and the upper lip as these are the most sensitive areas.

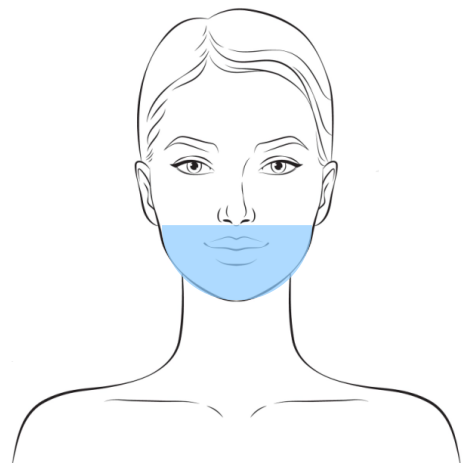

PicoGenesis/PicoGenesisFX - Forehead

Focus on the hairline. Keep the numbing cream above the eyebrows.

PicoGenesis/PicoGenesisFX - Lower Face

Focus on the area under the nose down to the chin.

**PicoGenesis/PicoGenesisFX -
MidFace**

Focus on the area above the upper lip to the bridge of the nose and across.

**PicoGenesis/PicoGenesisFX -
Cheeks (*Acne Scarring)**

Focus on the area right above and right below the cheek bones. Avoid the eyes.

*Acne Patients - apply to areas with scarring

**PicoGenesis/PicoGenesisFX -
Chin**

Focus on the area under the lower lip and down to the bottom of the chin.
